

costs, that are expensed in the period in which they are incurred, such as selling expenses and general and administrative expenses. Other costs are all costs recorded on the books of the producer that are not product costs or period costs, such as interest. Total cost does not include profits that are earned by the producer, regardless of whether they are retained by the producer or paid out to other persons as dividends, or taxes paid on those profits, including capital gains taxes;

(y) *Used*. “Used” means used or consumed in the production of goods; and

(z) *Value*. “Value” means the value of a good or material for purposes of calculating customs duties or for purposes of applying this subpart.

§ 10.730 Originating goods.

Except as otherwise provided in this subpart and General Note 28, HTSUS, a good imported into the customs territory of the United States will be considered an originating good under the AFTA only if:

(a) The good is wholly obtained or produced entirely in the territory of one or both of the Parties;

(b) The good is produced entirely in the territory of one or both of the Parties and:

(1) Each non-originating material used in the production of the good undergoes an applicable change in tariff classification specified in General Note 28(n), HTSUS;

(2) The good otherwise satisfies any applicable regional value content or other requirements specified in General Note 28(n), HTSUS; or

(3) The good meets any other requirements specified in General Note 28(n), HTSUS;

(c) The good is produced entirely in the territory of one or both of the Parties exclusively from originating materials; or

(d) The good otherwise qualifies as an originating good under General Note 28(n), HTSUS.

§ 10.731 Textile and apparel goods classifiable as goods put up in sets.

Notwithstanding the specific rules set forth in General Note 28(n), HTSUS, textile or apparel goods classifiable as goods put up in sets for retail sale as

provided for in General Rule of Interpretation 3, HTSUS, will not be considered to be originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed 10 percent of the value of the set.

§ 10.732 De minimis.

(a) Except as provided in paragraphs (b) and (c) of this section, a good that does not undergo a change in tariff classification pursuant to General Note 28(n), HTSUS, is an originating good if:

(1) The value of all non-originating materials used in the production of the good that do not undergo the applicable change in tariff classification does not exceed 10 percent of the adjusted value of the good;

(2) The value of the non-originating materials described in paragraph (a)(1) of this section is included in the value of non-originating materials for any applicable regional value content requirement for the good under General Note 28(n), HTSUS; and

(3) The good meets all other applicable requirements of General Note 28, HTSUS.

(b) Paragraph (a) does not apply to:

(1) A non-originating material provided for in Chapter 4, HTSUS, or in subheading 1901.90, HTSUS, that is used in the production of a good provided for in Chapter 4, HTSUS;

(2) A non-originating material provided for in Chapter 4, HTSUS, or in subheading 1901.90, HTSUS, that is used in the production of a good provided for in one of the following HTSUS provisions: subheading 1901.10, 1901.20 or 1901.90; heading 2105; or subheading 2106.90, 2202.90 or 2309.90;

(3) A non-originating material provided for in heading 0805, HTSUS, or subheadings 2009.11 through 2009.39, HTSUS, that is used in the production of a good provided for in subheadings 2009.11 through 2009.39, HTSUS, or in subheading 2106.90 or 2202.90, HTSUS;

(4) A non-originating material provided for in Chapter 15, HTSUS, that is used in the production of a good provided for in headings 1501 through 1508, 1512, 1514 or 1515, HTSUS;

(5) A non-originating material provided for in heading 1701, HTSUS, that

§ 10.733

is used in the production of a good provided for in headings 1701 through 1703, HTSUS;

(6) A non-originating material provided for in Chapter 17, HTSUS, or heading 1805, HTSUS, that is used in the production of a good provided for in subheading 1806.10, HTSUS;

(7) A non-originating material provided for in headings 2203 through 2208, HTSUS, that is used in the production of a good provided for in heading 2207 or 2208, HTSUS; or

(8) A non-originating material used in the production of a good provided for in Chapters 1 through 21, HTSUS, unless the non-originating material is provided for in a different subheading than the good for which origin is being determined.

(c) A textile or apparel good provided for in Chapters 42, 50 through 63, 70, or 94, HTSUS, that is not an originating good because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in General Note 28(n), HTSUS, will nevertheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than 7 percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good will be considered an originating good only if such yarns are wholly formed in the territory of a Party. For purposes of this paragraph, in the case of a textile or apparel good that is a yarn, fabric, or group of fibers, the term “component of the good that determines the tariff classification of the good” means all of the fibers in the yarn, fabric, or group of fibers.

§ 10.733 Accumulation.

(a) Originating materials from the territory of a Party that are used in the production of a good in the territory of another Party will be considered to originate in the territory of that other Party.

(b) A good that is produced in the territory of one or both of the Parties

by one or more producers is an originating good if the good satisfies the requirements of § 10.730 of this subpart and all other applicable requirements of General Note 28, HTSUS.

§ 10.734 Regional value content.

(a) *General.* Except for goods to which paragraph (d) of this section applies, where General Note 28(n), HTSUS, sets forth a rule that specifies a regional value content test for a good, the regional value content of such good must be calculated by the importer, exporter, or producer of the good on the basis of the build-down method described in paragraph (b) of this section or the build-up method described in paragraph (c) of this section.

(b) *Build-down method.* Under the build-down method, the regional value content must be calculated on the basis of the formula $RVC = ((AV - VNM)/AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value of the good; and VNM is the value of non-originating materials that are acquired and used by the producer in the production of the good, but does not include the value of a material that is self-produced.

(c) *Build-up method.* Under the build-up method, the regional value content must be calculated on the basis of the formula $RVC = (VOM/AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value of the good; and VOM is the value of originating materials that are acquired or self-produced and used by the producer in the production of the good.

(d) *Special rule for certain automotive goods—(1) General.* Where General Note 28(n), HTSUS, sets forth a rule that specifies a regional value content test for an automotive good provided for in subheadings 8407.31 through 8407.34 (engines), subheading 8408.20 (diesel engine for vehicles), heading 8409 (parts of engines), or any of headings 8701 through 8705 (motor vehicles), and headings 8706 (chassis), 8707 (bodies), and 8708 (motor vehicle parts), HTSUS, the regional value content of such good must be calculated by the importer, exporter, or producer of the good on the basis of the
